SUMMARY

Aspiring architect with a strong passion for integrating science and art to create impactful spaces. Experienced in conceptual design, construction documentation, and material selection. Skilled in collaborating with multidisciplinary teams, participating in live projects, and conducting site visits. Currently pursuing a diploma in Building Information Modeling (BIM) to strengthen technical expertise and collaborative workflows.

KEY ACHIEVEMENTS

Academic Achievement

Achieved a CGPA of 3.29 demonstrating strong academic performance in architecture

JOBS EXPERIENCE

Senior Architect

MAS-DESIGNS ARCHITECTURE FIRM

November 2025- July 2026

Lahore

- A creative architecture studio focused on innovative design solutions and real-world project execution.
- Working as a Senior Architect, I contribute to commercial and residential projects from concept to execution. I have experience in minimalist design, design development, and planning, along with strong knowledge of material selection. I have also worked as an Interior Designer and Site Supervisor, handling site management and coordination. Additionally, I am involved in project management, ensuring smooth and timely project execution.

BIM Architect

ARCHILANCE LLC

March 2025-October 2025

Lahore

- Developed and managed BIM models using Autodesk Revit for residential and interior design projects, ensuring accuracy and coordination throughout the design process. Created and customized parametric Revit families, particularly for interior elements, to improve workflow efficiency and project consistency. Prepared detailed architectural drawings, including reflected ceiling plans (RCPs) and complete documentation sets in line with project requirements. Utilized BIM 360 / Autodesk Construction Cloud (ACC) for cloud-based collaboration, model coordination, and version control. Contributed to the successful delivery of 16+ projects while maintaining quality standards and meeting tight deadlines. Assisted in design development and multidisciplinary coordination to ensure alignment with architectural intent and client requirements.

INTERSHIP EXPERIENCE

Trainee Architect

MMAD-DESIGN ARCHITECTURE FIRM

Jan 2023-Feb 2023

Lahore

- A creative architecture studio focused on innovative design solutions and real-world project execution.
- During my trainee role at MMAD-DESIGN Lahore (Jan – Feb 2023), I assisted in conceptual design development, prepared architectural drawings, and participated in site visits. This experience enhanced my design skills, improved my software proficiency, and gave me valuable exposure to real-world projects and construction processes.

Junior Architect

DESIGNS (Architects Engineers Designers)

January 2024 - February 2024

Lahore

- A multidisciplinary firm offering architectural, engineering, and construction services with a practical, hands-on approach.
- Collaborated on live projects and site visits, gaining hands-on exposure to construction practices and technical problem-solving.
- Assisted senior architects with drawings, presentations, and material boards for ongoing projects.

Junior Architect

GALLERIA DESIGNS ARCHITECTURE FIRM

January 2025 - February 2025

Lahore

- A renowned Lahore-based architecture firm specializing in innovative, sustainable, and comprehensive turnkey design solutions.
- Gained hands-on experience in material knowledge, detailed working drawings, interior and exterior material selection, and developing design concepts from start to finish.
- Contributed to the design development of residential and commercial projects, emphasizing innovative, sustainable, and client-focused solutions

CERTIFICATIONS

IAP (Institute of Architects Pakistan)

- Registered as an Affiliate Member of IAP on 24th April 2025, reflecting my professional commitment to architectural practice, continuous learning, and engagement with Pakistan's leading architectural community.

IAPEX Peshawar Chapter (Building Materials & Product Exhibition & RCESS-II)

- Volunteer – IAPEX Peshawar Chapter
- Recognized for active, dedicated participation and valuable contribution as a volunteer.

IAPEX Lahore Chapter 11.24 (Building Materials Exhibition)

- Participated in the Building Materials Exhibition, gaining exposure to innovative construction materials and industry trends.

Alumni Event – UET Abbottabad

- Participated as part of the Media & Graphics Team, contributing to event branding, visual content creation, and overall presentation design.

COURSE

BIM (Building Information Modeling)

September 2015 - June 2026

- Completed a 1-year Building Information Modeling (BIM) diploma in June 2026. The program focused on collaborative digital processes integrating 3D modeling, data management, and project coordination to enhance design accuracy and efficiency. It strengthened my skills in BIM software, 3D modeling, construction documentation, and multidisciplinary project collaboration workflows.

Skills.

- Implemented ISO 19650-compliant BIM workflows and digital delivery processes, overseeing model development and management from LOD 300 to LOD 500. Quantity take-offs from BIM models, façade detailing and substructure coordination. Parametric modelling in Revit, fabrication drawing review and technical submittal handling. Interior design concept development, 3D visualization using Lumion, Enscape, and V-Ray. Joinery detailing and interior fit-out layouts, ceiling and lighting layout production. Multidisciplinary coordination with architecture, structure, and MEP; BIM collaboration and integration

SKILLS

Drafting And 3D Modeling.

AutoCAD, SketchUp, Revit, Naviswork, Civil 3D, Rayon

Visualization

Lumion, Enscape, D5 Render, V-Ray

Graphic Tools

Photoshop, Microsoft world, PowerPoint, Microsoft excel

Core Skills

Concept Development, Material Selection, Client Coordination, Team Collaboration

EDUCATION

Bachelor of Science in Architecture

University of Engineering and Technology Peshawar

October 2020 - July 2025

Pakistan

Higher Secondary School Certificate

Fazaia Degree College Risalpur Cantt

August 2018 - May 2020

Pakistan

Secondary School Certificate

PLF Public High School Risalpur

August 2016 - May 2018

Pakistan

WORKSHOPS

Art Competition & Exhibition

05/2022

- Nathia Gali Club (GDA): Enhanced artistic & presentation skills through participation

Junk Art Installation Design

06/2023

- UET Peshawar Abbottabad Campus, focused on innovative use of recycled materials and creative problem-solving.

ELV System & HDL Building Automation

10/2023

- UET Peshawar Abbottabad Campus, conducted by HDL Lahore, providing exposure to modern building automation and smart control systems.

Echoes Of Rawalpindi (Urban Monument Design Challenge.)

05/2025

- Participated in a national design competition to create a culturally and contextually relevant urban monument

PROJECTS

October 2020 - 2025

Various architectural projects demonstrating practical applications of design skills

- Thesis (Rising the Tech): Crafting Future Hubs for AI, Creativity, and Technological Growth
- Health care architecture specialized hospital
- Pak-China Gateway Design
- High Rise (Vertical Farming)
- Landscape Design (Healing Gardens)
- Urban Design
- Montessori school
- Mosque Design Project
- Restaurant
- TVET technical college
- Interactive Retreat
- Contour 105' 10 ½ area
- Residential Project
- Residential Interior Projects
- Commercial Interior Projects
